

Jordyn P. Reid

I am a web design enthusiast passionate about creating compelling and functional websites. I am also an excellent collaborator who is passionate about achieving outstanding results and adapting seamlessly to evolving project demands. I am skilled in user interface design and front-end development. I aim to continue honing my craft and seek opportunities that align with my goals.

EXPERIENCE

Solid Rock Baptist Church, District Heights, MD —Audio Visual Sound Technician

January 2023 - Present

Controlled microphones, sound levels, and outputs to produce high-quality audio for Sunday worship services. Kept inventory of all audio equipment, ensuring timely repairs and replacements when necessary. Separated instruments, vocals, and peripheral sounds and mixed during the post-production stage.

EDUCATION

Bowie State University, Bowie, MD — Bachelor of Science, Computer Technology: Internet Tech & Web Services

Degree Received: May 2025

Prince George's Community College, Largo, MD — Associate of Arts, General Education

Degree Received: June 2022

Chesapeake Math and IT South, Upper Marlboro, MD — HS Diploma

Diploma Received- May 2020

PROJECTS

Fictional Business Website in HTML — 2024

Created a website via HTML & CSS programming that depicts a Fighting Game Bootcamp(FGBC). FGBC specializes in improving player skills with fighting games. Lastly, the website is paired with a PowerPoint presentation where I explain the coding behind the webpage.

Network Security Layout — 2024

Designed a network security layout that reflects the IT and financing company EplusInc. The project included a WAN topology network layout, internal and external security measures, authentication credentials, vulnerability assessment, and application of the NIST framework relative to EplusInc.

CERTIFICATIONS:

Cyber Defense Education - US Department of Homeland Security and National Security Agency USA - May 2025
